

Insights into Deep Learning in Industry

When: Wednesday, Dec. 18th, 2019, at 14:00

Where: AR-D 5103 (roter Hörsaal)

Within the „Deep Learning“ Lecture by the Chair for Computer Vision, two speakers from industry have agreed to provide a practical perspective on Deep Learning and illustrate where these advanced machine learning techniques are used in applications.

- Dr. Mirco Meuter from Aptiv, <https://www.aptiv.com/>, one of the largest automotive suppliers, will talk about how machine learning will shape the future of mobility.
- Dr. Lin Wan, CEO and co-founder of the start-up Virtual Retail, <https://www.virtual-retail.com/>, from Siegen will present “Machine Learning in practice - how Virtual Retail applies deep learning across its core products“

Both speakers will talk for 25 minutes with 10 minutes time for questions afterwards. After the talks, we'll have a coffee break in which you have the chance to meet and talk to the speakers in person.

Everyone is invited!

Come by, attend the talks and participate in interesting discussions over a coffee!

Looking forward to seeing you there!

- Michael Möller, michael.moeller@uni-siegen.de, Chair for Computer Vision
